

Brotherhood of Men is a series of workshops to empower young men to become more authentic, courageous and vulnerable - a clearer channel for spirit and soul. We invite teachers and speakers to share their knowledge, teachings and wisdom. These events are non profit and hosted by the **YoungVision** association.

Higher Consciousness for Young Men

Through our questions, our dreams, our passion and pain as men, we find consciousness – and the possibility of discovering more in ourselves. Working creatively with awareness supports us in the many challenges and invitations of our lives. There are higher levels of consciousness available to us when we meet each other deeply, and in these two days we invite you to bring your questions and alive-issues, your problems and next-potential. We will be working in English, using dialogue, inner work, and systemic constellations, and we will be creative with language if any translation is needed. We also invite the presence of a few older men, to witness and support our work together.
